You will be able to view high-quality movies that were originally produced in standard definition on a high-definition television, and experience an HD picture quality. This is good news for all the people who are excited about the arrival of the new season of movies and television series. This is the second year of the project to use several UHD Blu-ray Discs to play movies. It's a leap forward from last year's season where it was only using one Blu-ray Disc player. You can now enjoy this premiere of movies in high definition. One of the most important projects to use UHD Blu-ray Discs will be to broaden the range of movies that can be played by UHD Blu-ray Disc. Since UHD Blu-ray Disc is compatible with HDCP 2.2, it can accept encoded content that contains many features and codecs. Therefore, there is a much wider selection of movies than the previous season. As a result, this season will play movies in high definition in a more improved way. The UHD Blu-ray Disc player provides the highest quality images on the market. This includes DVD9 Ultra HD that has the best possible images with high quality and edge enhancement. The high-quality 4K images can be seen in 720p, 1080i and 1080p. You can experience much smoother images than the previous season. The UHD Blu-ray Disc player supports all the Blu-ray discs including Ultra HD Blu-ray Discs. You can enjoy movies and television series in high definition on Ultra HD Blu-ray Discs without any problem. [Controls]
