It is important to protect your computer against the risks associated with malware. Therefore, we recommend using SpyHunter. It will help protect against spyware, adware, viruses, Trojans, keyloggers, rootkits, and many other threats. SpyHunter allows you to scan the following, among other things. (All listed items are available in SpyHunter.) Download SpyHunter Start the download. If you want to use the free version of SpyHunter, click on the button that says, "Download Trial". Enter the license key provided on the download page in the box provided. If you don't have a license key, click on the button that says, "I don't have a license key". If you are prompted to activate the free trial, follow the steps on the page, and then click on the OK button. After completing all the steps and clicking on the OK button, your free trial will expire. You will be required to purchase a license key to continue using SpyHunter. If you are not satisfied with SpyHunter, you may cancel the purchase at any time. You can download a 30 day free trial of the full version of SpyHunter from the following link. Send feedback If there is any problem or you have an issue regarding this software, please contact us.
