

## Simcity 5 Rar Password

After some research i found a program that works on windows 7 and windows 10 but i need a word file for it so i downloaded one from gov websites but it is too hard to find a word file to install on PC windows 7 A: 1. Open the installation folder and copy the microsoft.com/ast \ast.msi file. 2. Right-click the microsoft.com/ast \ast.msi file and select "Open With Microsoft Office Excel". 3. Open the xlt file using Excel. 4. Go to "Tools" -> "Options" -> "International" and click on "Custom". 5. Select "Sheng Leong (Malaysia)" and click the "OK" button. 6. Click on "Install" at the bottom. 7. Wait for Excel to finish installing and close the program. 8. Right-click the microsoft.com/ast \ast.msi file and select "Open With Microsoft Office Word". 9. Open the DOC file using Word. 10. Find and replace all the words with "ahmed". 11. Right-click the microsoft.com/ast \ast.msi file and select "Open With Microsoft Office XML". 12. Open the XML file using Word. 13. Click on "Paragraph". 14. Select "Character". 15. Click the "Font" tab. 16. Find and replace all the values with "ahmed". 17. Click on "Page Layout". 18. Select "Paragraph". 19. Select "Character". 20. Click the "Font" tab. 21. Find and replace all the values with "ahmed". 22. Click "OK" at the bottom. 23. Save the file as "ahmed.xml" (with.xml extension). 24. Navigate to the program folder and open the XML file. 25. Change the default value of "Margin" to "0.1" and click on "OK". 26. Select "File". 27. Open the HTML file and change the first line to "". 28. Save the file as "ahmed.html". 29. Close the program and the browser. 30. Go to the program folder and open the ahmed.html file
