
Gladius | Gladiator VR Sword Fighting Free Download [key]

Gladius is an immersive virtual reality sword fighting game set in Ancient Rome. As a gladiator, you will choose your weapons, train against different enemies, ... and die at regular intervals. You will also fall prey to other gladiators in PvP battles, but can you survive fighting in the arena in virtual reality? If yes, then you can win valuable prizes and even get money for development. I can't tell you exactly how the game works due to the terms of service, but you can play it by choosing the Facebook version, which is free and has no ads. Gladius is available for purchase on Steam.
