. Nissin Tracer x60  
cnam240a7dd4a freed  
ownloadfifastreet4full  
versiongameforpcrar  
. You can select  
between documents in  
two ways. Choose the  
checkbox at the right  
of the navigation  
menu then click the

---

letter to open the document. The Data View Filter panel opens. It displays all the rows that match the filter criteria and allows you to select or deselect them. The Filter Row dialog box opens. It displays the rows selected in the

---

Data View Filter panel. The dialog box allows you to select which columns to display in the report. Sorting the columns is useful to create new ordering schemes for the report. Click OK. If you select the column to sort the

---

rows by, sorting occurs in the Data View Filter panel. You can add a new column to the report by choosing to add a column in the Toolbars & Views panel. Figure 4. Right-click a cell in the Data View Filter panel.

---

Figure 5. Choose Add Column. Figure 6.

After the columns are selected, choose Save & Reload. The columns are added to the report and all the rows are refreshed in the Data View Filter panel. Go to the Toolbars & Views

---

panel, right-click a cell in the Data View Filter panel. Choose Hide Columns. Figure 7. The columns are hidden. Figure 8. Click the Add Column icon in the Toolbars & Views panel. Figure 9. Choose the row to

---

which the column should be added.

Figure 10. Click OK.

You can delete rows from the report by selecting the row in the Data View Filter panel, right-clicking the row, and choosing Delete from Data View Filter. From the

---

Toolbars & Views  
panel, click the row in  
the Data View Filter  
panel to select the row  
and then choose  
Delete from Data  
View Filter. You can  
change the width of  
column names. Select  
the cell in the data  
view filter panel and

---

choose Properties from the Format menu. Select the Layout tab. The Width drop-down lists the options. Choose the option that is appropriate for the column you want to change the size of. From the Toolbars &

---

Views panel, click the row in the Data View Filter panel to select the row and then choose Row Properties from the Format menu. Select the Row Height tab. The Row Height drop-down lists
